

Audio/Video Component Tower™ 600

Elegantly Hide Your Electronics and Make Them Visible Only When They Need to Be

A smart, stylish storage solution for your home theater.

The Centra Audio/Video Component Tower 600 is a sleek, tall component showcase that blends with virtually any home décor. Behind its door is everything needed to store your home theater electronics.

Looks at home in any home.

Sleek design and an abundance of features—make it possible to live with a home entertainment system that's unobtrusive, yet created for enhanced performance and ease of use.

Family-friendly features deliver an outstanding home theater experience.

Your Centra Audio/Video Component Tower 600 is specially-ventilated using a dual-fan cooling system to help optimize performance of components. Heavy-duty casters make it easy to move the Component Tower when cleaning or accessing the back of the component. Media drawer with multiple dividers let you keep DVDs and remotes in a neat, organized storage area. And the integrated Monster Cable Management System™ keeps cables and connections neat and clean. Now your home theater electronics can look like they truly belong in your home.

Beautiful presentation. Seamless design.

Powerful performance. Centra by M·Design.

*Form. Function. Beauty.
The Centra Audio/Video Component Tower
is a place to have it all—all in one place.*
